Gladiolus
COTATI, CALIFORNIA

Greetings

Our bulb sales for the season 1947 far surpassed anything we had hoped for. We now wish to thank all those customers who sent orders to us, and we do hope that their bulbs produced fine bloom for them. We appreciate your patronage and hope to please you always. We also appreciate the many fine letters complimenting our varieties. A gladiolus has passed the test if you find it in this catalogue and it has a definite use in the garden, the show or in commercial floral channels. Only quality hand-cleaned inspected stock is shipped and I shall be glad to know if at any time our service and quality do not warrant your utmost satisfaction.

As you glance through this catalogue, you will readily notice that our listing is small. The reason is that no one grower can grow, and judge, all varieties as there are several hundred in existence. Also there are varieties which we could have listed that have been replaced by new and better kinds.

PLEASE READ CAREFULLY BEFORE ORDERING

This price list cancels all previous lists. We aim to send out bulbs of the best quality—clean, true to name, etc., equal to any regardless of where grown.

Prices and Terms: Cash with order, Please. Kindly send money order if possible. All orders amounting to \$1.00 or over will be sent prepaid; orders less than \$1.00, add 15c for postage. We try to make our prices as low as other gladiolus specialists, doing away with all complicated discounts, coupons or other sales propaganda. As our old customers know, we are generous with overcount, oversize and valuable extras. We guarantee you will be pleased with the way your order has been filled.

Large will be 1 $\frac{1}{4}$ inch and over. Medium will be 1 inch or better. Small $\frac{3}{4}$ to 1 inch.

On new varieties priced per each: 10 bulblets may be had for the price of one large bulb. Hand selected.

Order early to avoid disappointments as in some varieties stock is very limited and will go right out. Kindly name second choice as WE DO NOT SUBSTITUTE unless instructed to do so, but may send next size smaller if out of larger sizes.

NO SMALL SIZES OR BULBLETS FOR SALE AFTER APRIL FIRST

California customers please add sales tax of 2 $\frac{1}{2}$ per cent. All stock offered and orders accepted subject to prior sale.

PLEASE DO NOT SEND STAMPS.

Notice!

Just a few words regarding these Picardy sports, such as Pink Picardy, Leading Lady, Silver Wings, Lady Luck, Bernadette, Prosperity, etc. You will receive some Picardy bulbs among all the above no matter whom you may purchase from. Any one who says otherwise is very reckless with the truth.

We have a nice collection of Camellias in gallon cans of popular varieties. If interested send for list. Ship anywhere.

DIP and SPRAY

Dip the bulbs before planting in one tablespoon of Lysol mixed thoroughly with one gallon of water. Let them soak for six hours immediately preceding planting.

Spray your glads weekly after foliage is in the third leaf to kill thrips. Two ounces of tarter emetic, six ounces of brown sugar. Mix well with three gallons of water.

NAPHTHALENE FLAKES

If there is any possibility of there being thrips on your bulbs, by all means do something to get rid of them. Of course you know if you had thrips on your plants this summer but sometimes there are thrips in very small quantities that you might not notice so it is always safer to take precautions and get rid of the thrips in the fall before they have any chance of doing any damage to the bulbs. If you have only small quantities of bulbs, that is up to a thousand, Naphthalene Flakes are the simplest thing to use to clean up the thrips.
